### **Public Records Requests**

#### **Public Records Request**

A public records request is a request made under the Idaho Public Records Law (Idaho Code §74-101, et. seq.) by a member of the public, to include other government agencies, in order to examine or copy records maintained by the Idaho STEM Action Center.

A public record is any record, regardless of format, created or received by the Idaho STEM Action Center.

#### **How to Request**

Public records requests are to be in writing and shall include the requestor's full legal name, mailing address, email, and phone number. Preferably, public records requests are to be submitted through the on-line fillable form located on our website, but will be accepted through any of the following methods:

1. Online Form

#### **Custodian of Public Records Requests**

For the purpose of public records requests, the Idaho STEM Action Center has designated the Grants and Contracts Analyst as the custodian of the public records. A request is officially received by the Idaho STEM Action Center when it has been received by the Grants and Contracts Analyst.

The custodian ensures the agency responds to the public records request in the amount of time required by law; confirms the records are responsive to the request; and, exempts from disclosure any information that falls within one of the exemptions outlined in Idaho Code.

#### **Scope of the Public Records Request**

When a request is vague, broad, or determined to be large-in-scope, the custodian or his/her designee may contact the requestor for clarification. An explanation may be given as to what records are available to help identify the material the requester is seeking. This information may

help the requestor narrow the scope of the request when the response to the request is likely to be voluminous or require payment as provided for in Idaho Code §74-102(10).

The custodian shall make no other inquiry of any person who requests a public record other than to verify the identity of the requestor, to ensure the records will not be used for purposes of a mailing or telephone list; or as required to protect personal information from disclosure. Idaho Code § 74-102(5)(a-c).

### **Timeline for Public Records Requests**

The Idaho STEM Action Center is required to respond to all public records request within three working days following the date the request was received. If a request is received on a holiday or weekend, the response will be considered received on the next business day. If the STEM Action Center fails to respond to a request within ten working days, regardless of the reason, the request is deemed denied.

It is possible the STEM Action Center will be unable to fulfill your request in the three business days allotted. An additional ten (10) working days may be taken in which case you will receive an extension letter. Your extension letter will be sent within three working days of receipt of your request and serves as notification that additional time is required.

### **Receiving a Denial or Partial Denial Letter**

Certain records may be withheld from disclosure due to their confidential nature. All partial and full denials have undergone attorney review. The letter you receive notes specific statutory provisions serving as the basis for your denial. You have the right to file an appeal within 180 days of the mailing date of the denial notice.
