Support with time and Talent

Give a few hours of your valuable time.

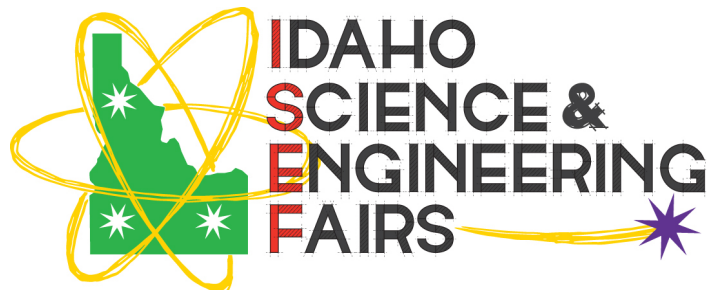

Educator Sponsor- \$300/educator

Support educator professional development for a specific community to provide educator kits and registration fees. Select a community or school district to impact.

Industry Leadership Strand Support

Lead a strand topic at an institute of choice relevant to your industry and provide supporting educator kits for attending educators. Funds support strand educators, educator kits for strand attendees, supporting materials and infrastructure.

Student Competitions

Three regional high school science and engineering fairs for students across Idaho (BSU, Coeur d'Alene Resort, ISU). These fairs offer students the opportunity to engage in original STEM research projects aligned with their interests and present their findings. Representative teams from each region are selected to attend and compete in the Regeneron International Science and Engineering Fair (Intel ISEF).

We Are COVID-Ready!

Program-preparedness is essential to support students and educators in their pursuit of high-quality STEM learning opportunities. Idaho STEM Action Center has taken steps to ensure delivery of programs and services using best practices, platforms and technology to support public health for students, educators, and communities. We value your partnership and want to ensure that the programs you support continue to provide access and create life-shaping STEM pathways in the communities you care most about.

Support with Time & Talent

Partnership through event and program support, site tours, mentorship, grant review, and judging competitions provide life-shaping STEM learning opportunities. Your support means the world to educators and students.
