

IDAHO ECOSYSTEM CONVENING PARTNERSHIP OPPORTUNITIES

March 30-31, 2023 | Fort Hall, Idaho Shoshone-Bannock Casino Hotel

Help Build Idaho's Success

Educators, industry leaders, out-of-school educational leaders, nonprofits, state and local government agencies, and the legislators convene to continue building successes in STEM for our communities, regions and throughout the state.

The Idaho EcosySTEM Spring Convening is where we come together across the state to NETWORK, LEARN, and SHARE our passion on expertise around STEM Education.

HOST A COMPANY TABLE

The EcosySTEM fosters the integration of STEM experiences for Idahoans, creating problem-solvers and critical thinkers who will sustain and lead our economy.

Idahoans in every part of the state have access to brighter futures when communities work together and share resources to communicate the value of local STEM education, experiences, and careers.

The Convening will host the first annual STEMMYs Awards on Day 2 to celebrate Idaho's biggest STEM stars

ECOSYSTEM CONNECTOR LEVEL
