South West Idaho
STEM Hub

Susan Stauffer
Idaho North and
North Central STEM
Hub

Ashley Schaffner
Idaho South and
East EcosySTEM
Hub

Goals of ISEE STEM

We hope to uphold and promote the state-wide goals of the EcosySTEM, as well as pursuing the following;

- Connect and build sustainable, mutually beneficial networks devoted to moving STEM forward for all Idahoans
- Create vibrant communication channels so that we have a better idea of what other regional partners are doing in real time, helping us be more efficient and not duplicating efforts.

The Idaho STEM Ecosystem will foster the integration of STEM in the educational experiences of all Idahoans

ISEE STEM Working Groups

1

Opportunity for Access- Survey available opportunities and improve equitable accessibility.

- Current project-STEM Night Toolkit

2

Awareness- Raise awareness of STEM careers, educational pathways, resources, learning opportunities, and ISEE STEM.

- Current project-Marketing Materials
- Completed-Facebook page, calendar, polos

3

Resource Assessment- Determine partners capabilities, identify current offerings, and foster productive partnerships.

- Current project-Directory of Resources for educators with UWSEI
- Completed/ ongoing-recruitment and building membership

4

Steering- Set goals, create governance structure, initiate funding efforts, and regulate expenditures.
