EDUCATOR PROGRAMS

i-STEM - Building Winning Classrooms With Stronger STEM Educators

Summer professional development workshops for over 400 K-12 educators state wide. i-STEM builds the framework for STEM education with hands-on methods and equipment for educators to learn and take back to their home teaching environments. i-STEM participants impact an average of 45,000 Idaho students each year. Your i-STEM support provides strand instructors, kits and equipment for classrooms, site coordination, field trip transportation, event luncheons and nationally recognized keynote speakers.

OPPORTUNITY

Statewide and Regional Partnership: support all 6 institutes statewide or select a regional institute.

- Platinum Partner \$25,000
- Gold Partner \$10,000
- Silver Partner \$5,000

Externship Program
Idaho STEM AC and Workforce Development Council

Grow with Us!

STEM Externships - Summer Externships for Classroom Teachers and Career Counselors

What do students actually know about local businesses and the future workplaces they offer?

The STEM Action Center, in partnership with the Workforce Development Council, provides K-12 classroom teachers and college and career advisors the opportunity to extern with local businesses over the summer. This program places selected externs with companies to work on projects related to their area of expertise and requires educators to complete 200 hours of on-site, experiential learning to take back to their classrooms and students. Hosted educator externs impact thousands of Idaho students.

OPPORTUNITY

Host an Extern

- Provide a local educator with 200 hours experiential workplace learning from June-August
- Build valuable classroom to career insight for local educators and their students

Sponsor

- Full Externship Partner \$5000
- Partial Externship Partner \$2500

Find out more from the 2022 employer-extern highlights at <https://stem.idaho.gov/apply/stem-externships/archives>

STUDENT COMPETITIONS

Idaho Science & Engineering Fairs MARCH 2023

Three regional high school science and engineering fairs for students across Idaho (BSU, University of Idaho, ISU). These fairs offer high school students the opportunity to engage in original STEM research projects aligned with their interests and present their findings. Representative teams from each region are selected to attend and compete in the Regeneron International Science and Engineering Fair (Regeneron ISEF).

Statewide and Regional Partnership:

- **Platinum Partner \$25,000**
- **Gold Partner \$10,000**
- **Silver Partner \$5,000**
- **Regional Impact Partner \$2,000**
- **Local Leader Partner \$500**
- **Student Lunch Partner \$1,750**
- **Create a Company Award \$500**
- **Select a STEM Award \$100**

Your partnership provides the next step toward a future in STEM, with project materials, student travel support, event costs and student awards.

Idaho Exhibition of Ideas | APRIL 2023

At three regional competitions, teams use 3D design and printing to solve problems and present their designs to a panel of judges. IDX sparks curiosity and invites innovative thinking for students grades 5-9. Your partnership provides a pathway and the tools to develop new skills.

Showcase/Challenge Partner \$2500

Awards Partner \$1,500

- Provides 3D Printer and Material Prizes + Cash Awards to support ongoing team 3D fabrication needs

IDX Kit Partner \$750

- Provides a 3D printer, tools and filament kit for a participating team

Competition Travel Partner

- Student Support \$250/student, Team Support \$750
- Provides support for students to attend and participate

Student Lunch Partner \$500

- Provides students with lunch at the competition

STEM AWARDS PROGRAMS

The Idaho STEM School Designation Program

Supports certification and recognition for schools or programs that provide high-quality, inter-disciplinary, multi-grade STEM education based on the 16 Cognia STEM School Standards. This designation recognizes schools that provide rich STEM learning experiences for students, educators, and communities. It defines best practices for STEM schools and with consistent criteria by which schools can measure their progress toward designation. Idaho STEM Action Center partners can support a school as it progresses on its path towards STEM Designation. Be a part of building a STEM School and make a difference for an entire community!

STEM Diploma Scholarships

Donate to STEM Scholarships Students in Idaho who earn a STEM Diploma are eligible to apply for a \$3,000 scholarship, provided they will be attending an Idaho post-secondary institution, including career technical schools, and have a minimum cumulative GPA of 3.0. The STEM Scholarships will be offered in the following fields: Advanced Manufacturing, Agriculture, Computer Science/Technology, Engineering, Food Sciences, Health Sciences, Mathematics, Natural Sciences, and General STEM (2). The STEM Scholarship application opens each fall for students to apply. Selected applicants are awarded by April 15th. STEM AC awards a minimum of 10 students each year. Your partnership makes this opportunity possible for more Idaho students.
